

SUN BEAMS

by WALTER M. BARRETT

California political parties have always been handicapped by the lack of one recognized partisan leader among all the factions in the party. From the haze of lack of leadership is emerging a real leader for the California Republican party and for the state as a whole. He is our own Senator Jerry Seawell. His firm hand at the helm of the State Senate as president pro-tem has gained him the respect of all and his excellent record as a legislator and as a man are qualifying him to stand head and shoulders above the crowd. It is our belief that the none too distant future will see "Jerry" governor.

The local Rotary club this week took a step toward further exemplification of the community of interest between Truckee and Tahoe by changing the name of the club from the Truckee Rotary Club to Truckee-Tahoe Rotary Club. The wisdom of this action shows again, as it has been shown many times in the past, that the two communities can best be advanced by mutual action for the mutual good. What is good for Tahoe is good for Truckee and vice versa.

We wish that every American could have seen the Boy Scouts who were camped on the shore of Donner Lake this last week-end. There could be no doubt of the safety of our democracy even by the pessimists who say "What is this rising generation coming to?" Clean, honest and interested in their country, these lads and millions like them will be able to carry on as well as—if not better than—their forefathers.

The unquestionable justice handed down in the local court in cases of fish and game law violations is to be lauded by every true sportsman. With rigid enforcement by Warden LaMarr and prompt action by Justice Smith, real sportsmen are encouraged and dishonest and unsportsmanlike action by hunters and fishermen is made very, very unprofitable.

WIFE OF LAKE RESORT PASSES AFTER LONG ILLNESS IN NEVADA

Mrs. Della M. Kehlet, wife of George Kehlet, manager of Meeks Bay Resort at Lake Tahoe, and for many years prominent in community affairs in her district, expired Tuesday morning in a Reno hospital. She had been ill for several months and had been in the hospital since early last spring. Mrs. Kehlet was a native of Dayton, Ohio, and was 48 years of age. She is survived by her husband.

Funeral arrangements were being made by the Ross-Burke Company in Reno.

October Programs For Local Theater Feature Many Stellar Pictures

The Donner Theater programs for the month of October were placed in circulation this week, the list opening with last night's show, Viva Cisco Kid, a Grade A western. This is followed by three westerns during the month of the same high caliber and a bill of such stellar hits as The Sea Hawk, a tale of adventure on the high seas in the days of Queen Elizabeth of England, that much talked of Dance, Girl, Dance which catapulted Lucille Ball to cinema fame, the Pulitzer prize winning play Our Town and a real comedy of errors, Turnabout.

There are no shows that a movie fan may afford to miss on the list.

13-Year-Old San Francisco Girl Is Lost in Woods, Found

Mercedes Trevorton, 13, daughter of Mr. and Mrs. T. O. Trevorton of San Francisco, lost two days in a remote region of Tahoe National Forest near Soda Springs, was found last Wednesday night by Ranger Charles Beardsley, a member of the searching party.

The girl, lost while on a deer hunting trip with her father, suffered no physical injury save swollen feet from excessive walking and cold. She was lost without gun or matches.

Upon being located on the French Meadows-Soda Springs road, she was taken to The Cedars and put to bed.

RUSTY BOREN IS HOST AT BIRTHDAY PARTY

Rusty Boren celebrated his eighth birthday on October 2 with a party for several of his friends. Ten guests were present.

Games were played after which the birthday cake was cut and refreshments served.

Improvement On Local Air Port Planned by U.S.

C. A. B. Plans Expenditure Of \$21,000 on Local Project

TAHOE IS ALSO LISTED

Tentative Plans Await Action OF Congress On Money

Reports from Washington, D. C., this week indicate that the emergency landing field just east of Truckee will be included in the Civil Aeronautics Board's \$20,029,920 program for civil airports development in California. According to present plans approximately \$21,000 will be spent on the Truckee project.

The emergency field at Lake Tahoe is slated to receive \$19,000 under the plan. Other airports under the program in Nevada and Placer counties are Grass Valley, \$130,000; Nevada City, \$83,200 and Auburn, \$14,260.

The program as outlined will include 83 airports throughout the state. It was pointed out that the gigantic defense project is tentative and dependent on Congressional appropriations.

The board said that no decision had yet been reached as to which projects would be commenced this year and which would be given secondary consideration and delayed until future years. Army and navy recommendations will carry much weight in determining priorities. The project calls for airports designed to provide intermediate fields suitable for military as well as civil use.

The largest single project planned in California is that for Long Beach, Los Angeles county, with a tentative appropriation of \$1,783,758.

Congress has set aside \$80,000,000 to start the national program during the current fiscal year. The C. A. B. estimates it will require \$521,000,000 to complete the ambitious project.

ROTARY CLUB HOST TO INTER-CITY MEET WITH LOYALTON CLUB

The Truckee-Tahoe Rotary Club was host to the Loyalton Rotary club at an inter-city meeting held at the California Cafe last Monday night. Due to the fact that several of the members of the local club, including President Theodore Schleuter, are from Lake Tahoe it was decided to call the club the Truckee-Tahoe Rotary club instead of merely the Truckee Rotary Club.

R. H. Strosider entertained the members and their guests with motion pictures of Lake Tahoe, Reno, Virginia City and the Mother Lode. The highlight of the showing were scenes of Lake Tahoe taken from the air. Stan Martin was program chairman.

Lyle Smith was admitted to membership in the local club. Lt. Strickland of the Hobart Mills C. C. C. camp was a guest.

Loretta Lewis Celebrates Tenth Birthday with Party

The circus motif added to the gaiety and color of the birthday party given for Loretta Lewis at the home of her parents, Mr. and Mrs. Ben F. Lewis, last Saturday afternoon. A cake in the chosen idea centered the dining table.

Loretta, who became 10 years old, received many good wishes and gifts from her friends who shared the event with her.

PYTHIAN SISTERS GET TWO NEW MEMBERS

Grand Chief Edna Smith of Covina, Cal., and visiting grand officers from Nevada viewed the initiation ceremony of Mrs. Roxie Archie and Ernest Sirr which was presented by members of Summit Temple No. 79, Pythian Sisters, last Saturday evening during the district convention here.

A banquet at Tony's Coffee Shop marked the close of the day-long session.

LIONS PLAN CHARTER NIGHT OBSERVANCE AT RAINBOW TAVERN

Final plans for the annual Charter Night of the Truckee Lions Club were completed at a meeting of the civic organization here last night. The affair will be held Saturday night at Rainbow Tavern on the Sacramento highway and 18 members and ladies of the Colfax Lions club will join the local group. Past presidents of the club here are in charge of the program.

Prof. N. E. Wilson of Reno will be the main speaker of the evening and District Governor L. R. (Bob) Jefferson of Grass Valley will be in attendance.

President William M. Englehart, Jr., will preside.

MAX McGWINN GETS DEGREE FROM U. C. PHARMACY COLLEGE

Degrees and certificates for which final work was done at Intercession and summer session on the Berkeley campus of the University of California, have been awarded by the regents, it was announced by President Robert Gordon Sproul this week.

Among those who earned recognition of their work is Maxwell James McGwin of Truckee who was given the degree of bachelor of science in the College of Pharmacy.

JOE MATTOS NAMED TO HEAD BOARD AT TUESDAY MEETING

Joe Mattos, who was elected as a member of the Truckee Sanitary Board at the polls last month, was named president of the group at the annual organization held Tuesday. He succeeds Frank W. Gaennle, who asked to be relieved as head of the board.

G. E. Hofmann was renamed as secretary of the board. Other members are George Pace, C. P. Goode and Gaennle.

A general discussion of the affairs of the district featured the meeting, but nothing of importance was accomplished.

Jerry Seawell Heads G.O.P. Canvass in Northern Section

State Senator Jerrold L. Seawell of Roseville Monday was appointed as campaign director of the Willkie-McNary canvass in Northern California by Assemblyman Thomas Kuchel of Anaheim, state chairman of the Republican party.

Seawell immediately appointed R. E. Girvin of San Francisco as assistant director and Clem Whitaker, San Francisco publicist, as campaign manager. Girvin was director of Senator Hiram Johnson's director in northern California in the recent primary campaign.

Folsom Woman Sees 64 Summers at Donner Lake

Mr. and Mrs. Charles Conley, who reside on the Mills-White Rock road near Folsom, claim the distinction of having spent their summers in the Donner Lake area for more than six decades.

Mrs. Conley says that each summer for the last 64 years has seen her at the lake and Conley claims a record only slightly below that of his wife.

The woman's parents, the late Mr. and Mrs. Louis Tomilson, operated a dairy at Donner Lake for many years. They owned the entire western end of the lake shore which was sold to the Donner Lake Company, present owners, about twenty years ago.

After the Tomilson family disposed of their Donner Lake business holdings, it was customary for the members to return to the area each summer for vacation periods. Mrs. Conley, the former Samantha Tomilson, never gave up the custom.

Conley, a friend of the Tomilsons since early youth, also spent his summers at Donner Lake and for various periods was employed by the Tomilsons. A romance developed and he persuaded Miss Tomilson to become Mrs. Conley. The marriage took place in Sacramento in 1913. The couple maintain a summer home at the lake.

Three Hunters Nabbed In This Area by Wardens

Spike Slayers Get Fines In Local Court This Week

Three deer hunters fell afoul of the fish and game laws during the past week, Game Warden William LaMarr reported.

Oscar Holstrom of Verdi, Nev., paid a \$50 fine when he appeared before Justice of the Peace C. E. Smith this week charged with possessing a spike buck which he shot near Hirschdale. He was apprehended by Game Warden J. E. Savage and Federal Warden H. Peer of Reno, who stopped Holstrom's car after it came onto the highway. He at first denied he had a deer in the car, the officers said, but a search revealed a large spike buck.

A \$50 fine assessed against V. C. Jordan of San Francisco was suspended by Justice Smith after the hunter appeared to answer a charge of having a spike buck in his possession. The deer had been validated by a forest service fire guard at Tahoe and was brought to Truckee for storage. A small lump on the butt of one of the spikes which might of been construed as a fork, together with the apparent honesty of the hunter in having the carcass validated, led the judge to suspend the fine, although the deer was confiscated.

William Frazier of Los Angeles had a \$25 fine suspended by Justice Smith following a hearing on a charge of failure to fill out the required tag. Evidence introduced at the hearing tended to show that no intent to violate the law had been shown. Frazier was permitted to keep his deer.

E. E. Edwards of Grass Valley was fined \$100 by Justice Smith early in the season for having a doe fawn concealed in his car.

NEVADA COUNTY IS GENEROUS IN CHECKS TO RELIEF "CLIENTS"

In Nevada county during July, the first month of the present fiscal year, relief was given to 1207 needy persons, California Taxpayers' association found, analyzing relief statistics of 58 California counties. Relief was given as follows:

149 Needy Children	\$2,533
103 Indigents	848
455 SRA (unemployment)	3,464
480 Needy Aged	18,826
20 Needy Blind	1,000

These data do not include relief or aid given solely by the Federal government, WPA, CCC, NYA and FSA, the association pointed out.

On the basis of average aid per recipient, the largest amount of aid extended in the county was to the needy blind who received, on an average, \$50 per person for the month. Average aid per person to the needy aged was \$39.22. Average aid per family for needy children was \$37.70, for indigent aid \$19.97 and for SRA unemployment relief, \$29.40.

WYETHIA CLUB GETS \$43 FROM FOOD SALE

Returns from the Wyethia Club's food sale held last Friday amounted to \$43.30. The money will be applied to the \$50 pledged by the club toward the fire department's pulmotor and respirator fund. Mrs. Laurence Zoebel was chairman of the sale and was assisted by Mesdames C. J. Bowers, William Pitts, C. P. Goode, R. S. Boren and James Garibaldi.

Mrs. Elden Tomini, chairman, has announced that the club will hold a public card party on Monday evening in the club building. Proceeds will be distributed to complete the pledge to the pulmotor fund, for club taxes and other club needs.

At the club's meeting this afternoon Mrs. Edith Fay and Mrs. Roxie Archie will act as tea hostesses and Mrs. W. M. Englehart, Jr., and Mrs. Lucille Bick will be program chairmen.

Advertising Is the Life Of Trade and Industry

Wife of Candidate

Mrs. Willkie doesn't play bridge and she belongs to no clubs. She spends no more time on her clothes than the average woman, but the results are always simple and becoming. Her main interests have always been her husband and son.

O. E. S. HONORS PAST MATRONS, PATRONS IN TUESDAY SESSION

Forty members and guests were present at the Tuesday evening meeting of Truckee Chapter 116, Order of Eastern Star, when the past patrons and past matrons were honored. The annual ceremony was an impressive one and enjoyed by those present. Refreshments were served at the close of the evening.

Mrs. Stanley Bavier, worthy matron, who introduced the honored members, will be a delegate to the grand chapter which will be held at Sacramento on October 15.

On November 5, the next meeting date of the local chapter, there will be an election of officers.

Two Truckee Young Men Escape Serious Injury In Accident on Reno Road

Charles Pierce and Don Mathias, widely known Truckee young men, escaped serious injuries Sunday morning when the car driven by Pierce left the highway and was badly wrecked near the San Francisco Fly-casting Club. The boys were returning home from Reno and Pierce is believed to have dozed at the wheel for a moment.

They were brought to Truckee and treated by Dr. J. H. Bernard. Pierce suffered severe cuts about the face and Mathias had bad bruises on the head. Neither was confined to bed. The car was badly damaged.

Former Hobart Woman Dies Following Attack

Mrs. George Lesselyong of Toulumne passed away recently after suffering a severe heart attack.

Mr. and Mrs. Lesselyong were former residents of Hobart Mills and lived there for many years prior to the closing of the mill in 1937. Lesselyong was first employed at Standard by the Pickering Lumber Company but later moved to Toulumne where he is still employed.

Mrs. Lesselyong passed away on September 12. She had been in ill health since early this summer.

The residents of Truckee and former residents of Hobart who knew the couple were shocked by her death and extend their heart-felt sympathy to her family.

Deer Hunters Blamed For Two Tahoe Forest Fires

The deer hunting and fishing season in this district will close on October 15, less than two weeks hence. At the same time the duck hunting season opens in Nevada and already local sportsmen are putting away rods and rifles and polishing shotguns, preparing for the annual invasion of the duck clubs in the neighboring state.

The hunting season in this region has been better than average, sportsmen agree, although there are still scores who have not shot their quota.

Still Here—

Mrs. James McIver, Sr., wishes to correct the false impression that she is now in Auburn. She is still here and may go to Auburn soon.

The Recreational Center Of The SIERRA

200 Boy Scouts In First Yearly Trek To Donner

History of Donner Party Told By Truckee Forest Ranger

CEREMONY IS HELD

Boys Promised Annual Visit To Historic Locations In State

The first of what is proposed to be annual pilgrimages to historic spots in California drew more than 200 Boy Scouts from the Sacramento and Tahoe councils to Donner Lake last Saturday and Sunday. E. A. Williams, scout executive from Auburn, was in charge of the event.

The boys erected their camp at the west end of Donner Lake where they spent Saturday afternoon and night. Sunday morning they hiked to Donner Monument where a fitting tribute was paid to the ill-fated Donner party. Flag ceremony, songs and talks featured the gathering.

H. I. Snider, district forest ranger from Truckee gave an interesting and educational talk on the history of the Donner party, explaining the recorded happenings of the pioneer group which suffered untold hardships on the site in the winter of 1846-47.

Lester J. Holmes of Clarksburg, president of the Golden Empire council, promised the boys the outing would be held annually providing it was found sufficiently interesting.

Davenport Foster, scoutmaster of Troop 32 of Sacramento, gave a brief but inspiring talk on Scoutcraft and compared the Boy Scout Laws with the inscription on Donner Monument which reads:

"Virtue to risk and find; Kindly withal and a ready help facing the brunt of fate; Indomitable—unafraid."

The ceremonies were held across the road from Donner Monument.

Veteran Railroad Engineer Retires After 45 Years

J. G. Lackey, Southern Pacific engineer of Roseville, retired from the service of the road after 45 years last Friday. During the time of his employment by the S. P. he had never been out of service and at the time of his retirement stood fifth in the seniority list for the Sacramento division.

Mr. and Mrs. Lackey who have made their home in Roseville since 1911, moved to Petaluma upon his retirement.

The retired engineer was born at Princeton, Colusa county, in 1872 and moved to Kirkwood in 1891 where he farmed with his father until he was 23. He worked as a student at Fruto and learned to be an agent there but did not serve. He was married to Miss Iris True in 1896, a year after he started firing for the Southern Pacific. The following year he moved to Sacramento, working as fireman on the Sacramento division on the run over the Sierra Nevada mountains. In 1901 he was promoted to engineer and served in that capacity until retiring.

Deer, Fish Season to Close In This Region on Oct. 15

Fifty men were required to control a blaze in the Hirschdale district, 10 miles east of here, last week. The fire was confined to a small area by Tahoe National Forest service crews. A fire in the Jackson Meadows area was more easily extinguished by forest service fire fighters. Both fires were believed caused by deer hunters. Dispatcher E. M. Stone said that deer hunters apparently are becoming careless, believing the fire danger is past due to recent rains.

SNOW FALLS HERE

The first sustained snow storm of the 1940-41 season fell here last night, leaving about 2 1/2 or three inches clinging to the trees and on the ground this morning. Sunshine prevails today with several clouds and last night's snow fall is rapidly melting.

Our Nation's Safety

The Cavalry

Yes, there still is a Cavalry. The Cavalry is very explicit on that subject. The Cavalry is usually what gets to the fight first. They may come on horses, as there are still some territories where a horse is still the best mean of going places. But a lot larger number gallop up in armored cars or in combat cars, that look, and—if you are on the receiving end—fell just like tanks. In fact they are tanks. Tucked away in the Cavalry are even men mounted on motorcycles. The Cavalry is still the fastest moving ground-fighting arm.

The Cavalry stays out in front of the main Army, exploring the ground ahead. Because of its ability to move far and fast it is supposed to spend a good portion of time in the enemies rear lines making a mess of things. To move being its prime function, a cavalry regiment needs the where-withal to get places, and the job devolving on the National Defense Advisory Commission, in respect to the Cavalry, is to tell the Army where, and when, and how, it can procure that transportation.

When it comes to horses for the horse cavalry, the Commission bows to the Army. They have been buying and raising horseflesh for so many years that they know the name, address and personal history of every type of horse they need. Sturdy half or three-quarters bred for hell-for-leather riding purposes, and heavier types of pack purposes. The American Cavalry is fitted out with heavy machine guns, mortars, and howitzers, which can be taken apart and made up into several suitable one-horse loads. Just for information, the Cavalry, when it gets to a fight, dismounts and sends the horses back.

Mechanized Cavalry

A mechanized cavalry regiment is made up of four combat car troops of about 100 men each. These are the striking power of the mechanized cavalry. Many of these may shortly be transferred to the new Armored Force.

There is a service troop which provides for transportation and maintenance. The reconnaissance troop is used by the regimental commander to find out where the enemy is at any given moment.

Like the combat cars, all the command cars are equipped with machine guns and two-way radios so that the commanders are set up to give orders to their units whether they are moving or waiting to move. So it is that every part of the mechanized cavalry regiment is able to roll and it has a tremendous fire power which makes it hell on wheels.

For weapons the mechanized cavalry has pistols, rifles, .30 caliber air-cooled machine guns, .30 caliber water-cooled heavy machine guns, .50 caliber

machine guns and 37 mm. guns (both used as antitank guns) and a 4.2 inch mortar to fire smoke shells. These shells are used as protection against enemy anti-tank guns. And to add a typically American touch, the Cavalry is supplied with the famous "Tommy Guns", beloved of the prohibition wars.

A cavalry division also has all the units of the infantry division. For example, it has a field artillery unit, drawn by six-horse teams in a horse cavalry unit and by trucks in a mechanized unit. The distinguishing mark of a cavalry division is that it contains no one who habitually walks.

Keeping the Cavalry Rolling

Now to keep all the rolling stock of a cavalry division able to roll takes considerable organization. There have to be men able to make a gasoline or diesel motor put, when the motor may want to quit. There have to be others who know where the proper supplies of fuel are located and how to get that fuel into the gas tanks no matter where those gas tanks happen to be. And that's no easy job when you realize that mechanized cavalry can get up in the morning, break camp, eat a hearty breakfast, get moving, and by nightfall be some three hundred miles and several thousand gallons of fuel away. And if the boys are to the rear of the enemy, the enemy undoubtedly will persuade the local filling stations not to sell them fuel. The fuel has got to go with the forces. Also the supply service must be ready to fix flat tires, tired tanks, jammed guns and give relief to the soldiers whose brains have been jarred into a splitting headache after rattling around inside a tank.

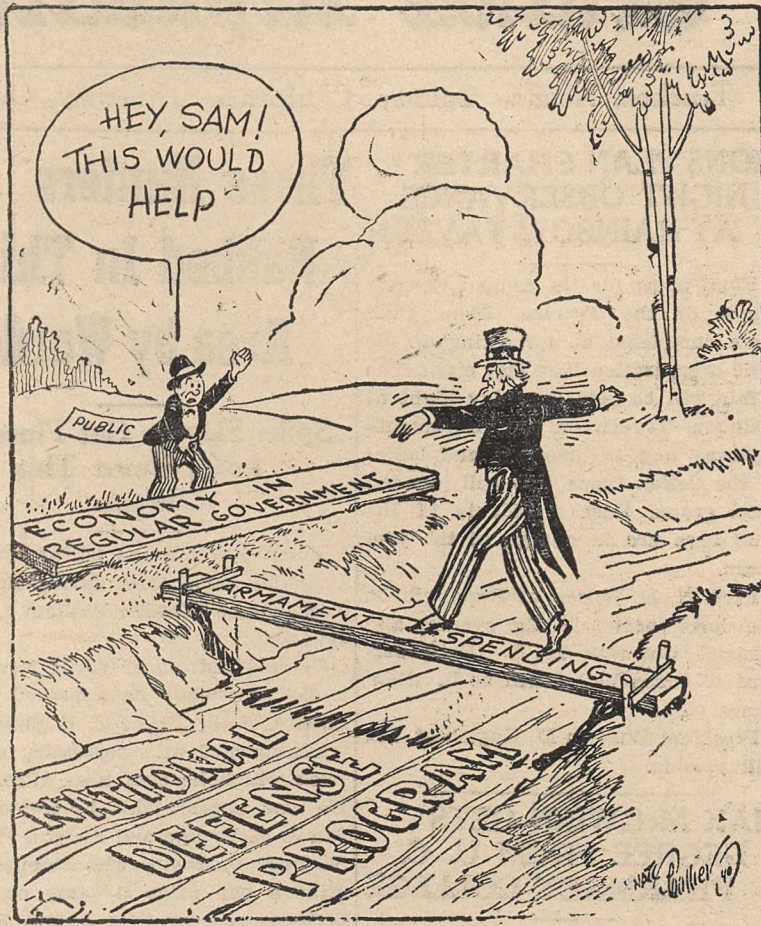

The problem of the horse cavalry is about the same. There must be hay for the horses, as a horse won't run without fuel anymore than a tank. And the modern horse has learned not to be scared of himself in a gas mask, and has to be kept supplied with one. It takes a wonderful supply organization in the Army to see that all the thousand and one articles necessary to keep a cavalry division in the running are handy when and where they are needed, even if a day's run may put them any place in 270,000 square miles of territory. But behind the Army there must be another organization ready to find the supplies in the necessary quantity and get them to where the Army can take them over. That is the job of the National Defense Advisory Commission. And it has to be done, not only for the Cavalry but for every other branch of the Army and Navy as well. That is why the Commission, for instance, has recommended that supplies of strategic materials be tucked away for future reference.

GOOD ADVICE!

EDITORIALS

ONE JOB, ONE PURPOSE—

With Japan threatening an alliance with Germany, the latter country already holding Europe in its grip by force of arms and planning to extend its dominions abroad when, and if, England is conquered, there is no lack of evidence that the militant totalitarian nations have established a working partnership to put the "squeeze play" on the United States.

Let this nation show serious concern for the fate of besieged Britain across the Atlantic, and a Japan on the prowl deliberately creates a "situation" to rivet our eyes across the Pacific. And as an ace up the sleeve, there are the South American countries and Mexico where ever busy Axis agents have means of stirring up sufficient trouble to distract our attention from events beyond the oceans.

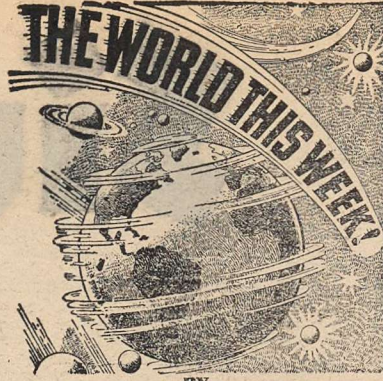

All this emphasizes, with blinding sharpness, the need of driving the defense program forward with all possible speed, the need of cutting through time-devouring red tape and technicalities. It emphasizes the fact that only our full and prompt arming can command from other powers such respect for our formidable might that we may be spared the necessity of using it. It emphasizes, too, the need of unity of purpose, the need for all citizens, all groups, all classes to work, sacrifice, and collaborate in carrying forward that task. It is no time for petty factionalism, no time for the peddlers of hate seeking to create local business enmities, nor for promoters bent on feathering their own nests by turning one religious, racial, or business group against another.

On policies and methods there will be clashes of opinion. This is right and desirable. But on the fundamental issue that we all share a common goal in seeing these United States made strong, kept free, and secure in her independence, there can be no disagreement.

DEATH'S AUTUMN COLORS—

While the golden browns and yellows of maples, sycamores, aspens and other deciduous trees are one of California's scenic treats of autumn, those same glorious hues in pine timber are simply the autumnal disguise of death in the forest. A beautiful golden brown appearing among the natural green needles of a yellow pine means that the tree is already doomed—for it is the sign that the dread pine bark beetle has done his lethal work. When a bright yellowish brown is observed in the foliage of sugar or white pine, that means that another of these valuable and most beautiful of trees has fallen victim to that scourge of the forest, the blister rust.

Only leaf-shedding trees turn brown naturally in the fall. In health, all members of the pine family are dark green the year 'round. And so dangerous are the twin forest menaces—the pine beetle is destroying more trees than fires and lumbering combined, the deadly blister rust will exterminate all white pine unless checked—that travel bureaus, chambers of commerce, and forestry officials have joined to urge that all motorists, hunters and hikers aid in combatting the plagues by spotting and reporting diseased evergreens. "Autumnal color" among pines and firs is the hue of death, and all instances should be reported promptly, with exact location, to forestry authorities.

ROBERT PATTERSON

(California Progress Review Writer)

THEY HAVE A PLAN

From embassies in Rome, Berlin, Madrid and Tokyo has streamed a flow of reports, unconfirmed statements, and rumors hinting at a co-ordinated world-wide diplomatic and military offensive against the British Empire. All this may be merely a new chapter in the "war of nerves" to weaken morale in Britain, yet it is no secret that the much-vaunted aim of the Axis powers and of Japan a partner in spirit if not yet in arms, has been to achieve the eventual downfall or weakening of "bloated plutocracies" like Britain and the United States. The aggressive militarist powers have a well thought out plan for aging their ends. They know what they want. Their people have sweated and sacrificed to build up formidable military machines, to that end. As a result, those powers have succeeded, thus far, in seizing the initiative away from their opponents because they, the totalitarian states, have always been first in the field. The United States is not interested in conquest, but in her own security, but she, too, must develop a plan, sharply define her interests, determine for herself what she will, or will not, defend so that in time of crisis she will not be caught flat-footed, undecided whether to act or not to act.

CHINA FIGHTS

The stubborn Chinese valiantly refuse to bow before the "New Order in Asia". Three years of warfare finds the might in morale, dogged in spirit, and contemptuous of their foes whom they dub "dwarf thieves". Chungking inland capital of China, has been decimated by explosive and incendiary bombs so that today no more than a third of the city is still standing. Yet Roy Howard, noted newspaperman, back from a tour of China, reports that the citizens of Chungking now look upon the unrelenting aerial bombardment of their city as simply part of the day's routine and greet it with stoical contempt. There is nothing to indicate Japan is anywhere near a military victory in China. Even cities in areas she supposedly conquered two and three years ago are still subjected to lightning guerrilla raids by her indomitable, unyielding foe. What price victory? Nippon would like to know. She has already paid a fabulous price, but victory? It isn't even in sight.

HOW BIG AN ARMY

When Uncle Sam dips down into 12 or 13 per cent of his total population this month and calls upon some 16,500,000 men to register for selective service, it may well mark the beginning of a military training program more far-reaching than anything dreamed of six, or even three, months ago. Informed circles now predict that the next Congress will be asked to make the present five year draft law a permanent one and, further, that the present conscription act be lowered to include youths between the ages of 18 and 21. But whether the United States embarks on a long-term program of building an enormous reservoir of trained men is hardly a matter that will be decided by a Congress or President alone, it will be decided by the fateful course of world events in the near future.

NORWAY'S PUPPET

Vidkun Quisling, who connived with Nazis to sell his country down the river last April, has now—by German appointment—been made sole political leader of Norway. Quisling, whose name has become a byword and a synonym for treachery, will scarcely get from his people the veneration

A liberal cannot believe in liberty for himself, he must believe in liberty for everyone else

and affection the so freely gave their King Haakon, now in exile. It was through the duplicity of Quisling, and of others like him, that last week Norway officially found herself reduced to little more than a vassal state within the Third Reich, stripped of her parliament, of her monarchy, and of free action as an independent nation. In exchange for these tragic losses, she has been awarded the puppet leadership of Quisling—a very sorry bargain indeed.

ONE BATTLE ENDS

A real battle has been raging for weeks on American soil, and has only now just reached its hair-raising, spine-tingling finish. We refer, of course, to that fiercely fought struggle between Indians, Tigers and Yankees which rolled across the East, with pitched battles taking place all the way from Detroit and Cleveland into the heart of New York, while hundreds of eager spectators cheered their favorite ally home to victory. Desperate, hard-fought as the battle was, no king lost his crown in the fray. Baseball, king of American sports, on the contrary, proved its right to wear that crown of kingship for many years to come.

TAHOE NEWS IN BRIEF

The H & W club will have its first meeting of the year on Monday, October 7th, at 8 p. m. at the home of Mr. and Mrs. Floyd Carnell of Tahoe City.

The Tahoe Ski Club will hold its annual election of officers for the coming year on Friday, October 4th, at 8 p. m. Everyone is urged to attend.

The Tahoe Women's Club entertained the husbands of its members in the Community Hall on Tuesday evening with a banquet. The later hours of the evening were spent at cards and dancing.

Allan Wehrman and David Donaldson of Winters are houseguests this week at the A. M. Henry home at Tahoe City. Al Henry, Jr., returned home with his friends after a six-week's stay in Oakland. The young men are all trying their luck at hunting during the last days of the season.

COUNTY SUPERVISOR INSPECTS LAKE ROADS

TAHOE CITY— Jack McFadden, Placer county supervisor from Forest Hill, was at Tahoe on Wednesday of last week where he inspected work done on county roads and projects this year.

McFadden stated that assistance would be given by county equipment for the work to be done on the Lake Tahoe Ski Club hill this fall.

HOW TO AVOID WAR

Aggressor nations attack only when they think they can win. Here are some facts that should discourage such ambitions toward the United States.

The same bomber can fly 30% faster and farther in the United States than in Europe. It can carry 20% more bombs.

Why? Because in America we manufacture 100 octane aviation gasoline in quantity—a thing no other nation can do. But that's only half the story. America's oil companies can expand their refineries to provide aviation fuel for 50,000 planes, or even more, faster than the planes can be built.

Is There Enough Crude Oil?

Yes, thanks to the industry's voluntary conservation program, Pacific Coast wells are operating far below capacity.

No other country in the world can even begin to support a modern mechanized army on its domestic production of petroleum. But the United States can, because we have over half the proved oil reserves of the world.

The Pacific Coast by itself can supply the Navy—even a two ocean Navy—with all the fuel, oil, diesel oil and specialized greases it will ever need.

Rubber and Explosives from Oil

Synthetic Rubber, developed by petroleum research chemists, is now being produced in commercial quantities in cooperation with the large rubber manufacturers. Before our present supply of natural rubber is exhausted, the U. S. can be made 100% self-sufficient with rubber made from oil.

Explosives. The petroleum industry has signed contracts with the War Department to produce 60,000,000 gallons a year of toluene, the basic ingredient of TNT. Glycerine is being made in even greater quantities. Production of both these vital materials can be expanded to the requirements of new explosive plants as fast as the plants can be built.

The way to avoid war is to make America self-sufficient—make America strong.

The petroleum industry, on its own initiative and without government subsidy, has prepared itself to do its part without delay in a national emergency.

America's defense will never be "grounded." Petroleum will never let her down.

A report to the public on the PACIFIC COAST PETROLEUM INDUSTRY

Three-quarters of a million people in all parts of the Pacific Coast depend on this industry for their living.

Fast End

GOOD HUNTING HANGS ON IN TAHOE REGION

TAHOE CITY— The hunting season in this region still flourishes and the deer are still being brought in singly, in pairs and by the truck load. A successful hunting party led by Gene and Bud Walker returned to camp Monday with three deer among them.

Tom Walker of Woodland, who was visiting his brother and son for the hunting trip, bagged his limit of two deer. The fourth hunter, Constable Harry Johanson, also shot a large buck. The Walkers plan to pack out a larger party during the week end to take advantage of the last week of the season in this locality.

The largest game brought in to Tahoe City since the opening of the season were two mule deer shot among the nearby hills west of town. Each weighed over 200 pounds. They were shot by two visitors at Tahoe Inn, W. E. Cox and L. V. Vallman of Los Angeles.

Among local hunters who have already this season are Billy Conner of Tahoe Inn and William Shifton of this city. Shifton shot both of his deer among the woods near Ski Canyon.

One of two women hunters to bag a deer here this season is Mrs. William Grant who is vacationing in Tahoe City from her home in the bay region.

STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACTS OF CONGRESS OF AUGUST 24, 1912, AND MARCH 3, 1933
Of The Sierra Sun and Truckee Republican published weekly at Truckee, California for October 1, 1940.

State of California
County of Nevada ss.

Before me, a Notary Public in and for the state and county aforesaid, personally appeared Walter M. Barrett, who, having been duly sworn according to law, deposes and says that he is the co-owner and publisher of The Sierra Sun and Truckee Republican and the following is, to the best of his knowledge and belief, a true statement of the ownership, management, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, as amended by the Act of March 3, 1933, embodied in section 537, Postal Laws and Regulations, printed on the reverse of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are: Publisher Walter M. Barrett, Truckee, California.
Editor Walter M. Barrett, Truckee, California.

2. That the owner is Walter M. Barrett, Truckee, Calif., Harriett K. Barrett, Truckee, Calif.

3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of the total amount of bonds, mortgages, or other securities are: None.

4. That the two paragraphs above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

WALTER M. BARRETT,
Sworn to and subscribed before me this 1st day of October, 1940.

C. B. WHITE
Notary Public.

Lake Tahoe News

MARCELLA WALKER, CLIFFORD WATSON MARRIED IN CARSON

TAHOE CITY— A Tahoe couple were married during the past week when Miss Marcella Walker became the bride of Clifford Watson at a surprise ceremony in Carson City on Friday evening. Friends and relatives were taken completely by surprise and the young couple were off on their honeymoon trip to Southern California before anyone knew of their marriage.

In the Tahoe atmosphere romances are given to blossoming swiftly and this one was no exception. The pair became well acquainted during the late summer days through mutual interests. Watson was employed at the Tavern stables during the season and Miss Walker spent the summer with her uncle and brother, Gene and Bud Walker, at the Walker riding camp near here. After a short honeymoon, the bride and groom expect to spend the winter in Phoenix, Ariz.

TAHOE PINES WOMAN KILLS DEER IN YARD

TAHOE CITY— Mrs. John Chesson of Tahoe Pines, noted crack shot and sportswoman, didn't have far to go to get her deer on Tuesday last week. As she stepped out in her front yard a big forked horn buck came into her line of vision. Shooting first with a small rifle she was carrying, the lady wounded the animal in the hindquarters and then dashed into the house for her deer rifle and killed the animal.

Tahoe residents who visited Treasure Island during the past week included Mr. and Mrs. John Pingree, Mr. and Mrs. A. M. Anderson and Mr. and Mrs. Frank Nease.

TAHOE MAN PLEADS FOR PROBATION ON STOLEN GOODS COUNT

AUBURN— James Ferguson, 41, Tahoe caretaker, asked for probation in superior court here Friday after pleading guilty to having been the receiver of stolen goods. Ferguson was arrested the preceding Saturday at Tahoe after being found in possession of articles stolen from the Walker ranch near Homewood.

A charge of burglary was dismissed Judge Landis when Ferguson pleaded guilty the charge of receiving stolen property.

The matter of probation was submitted to Probation Officer Charles Allen for investigation. A hearing into the petition was set for Friday at 10 a. m.

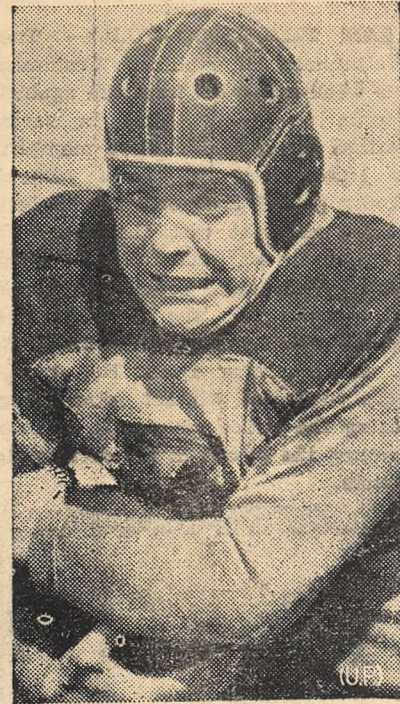

Miss Florence Vernon Is Hostess at Sister's Party

TAHOE CITY— Miss Florence Vernon of this city entertained in her home during the past week in honor of the birthday anniversary of her sister, Miss Lillian Vernon who was home from college over the week-end. The honoree received many beautiful gifts.

During the evening an indoor picnic was enjoyed around the large fireplace. Weiners and marshmallows were toasted and a large birthday cake was served after the proper number of candles had been lit and blown out by the honoree. The later hours were spent musically, with the group singing to piano accompaniment by the hostess. Besides the family, those present included Miss Jessica Grossman, Bob Huston, Red Sommerfeld and Joe Pomin.

Bids Called For New Placer County Jail at County Seat

Guests of Placer county will soon have modern quarters, according to action taken by the board of supervisors this week.

Plans and specifications for the new county jail were adopted by the board and a call for bids issued. The bids will be opened on October 18.

The plans call for a \$78,000 two-story building with a basement on land adjoining the county courthouse at Auburn.

Mrs. Anne B. Anderson is spending several days in San Francisco and the bay area.

MEEKS BAY NOTES

by I. M. EDWARDS
(Special Sierra Sun Correspondent)

Mrs. Charles Heller went to Reno on September 19 and 20 to attend the Knights of Pythias and Pythian Sisters Grand Lodge of Nevada sessions.

Fred L. Kehlet was one of the lucky ones to get his deer on Saturday, September 21. It was a three-pointer weighing 185 pounds.

Mrs. Charles Heller entertained at her home in Meeks Bay on Saturday the following guests: Mrs. Edna A. Smith of Covina, Grand Chief of Pythian Sisters of California, and Mrs. Margaret Wickersham of Santa Rosa, head of the Pythian Home Board.

Mrs. H. Walker was in Truckee shopping on Tuesday.

Members of Sacramento Club, Husbands, are Feted

Mr. and Mrs. A. W. Lampson of Lake Tahoe entertained at a weekend party for members of the Dextma Club and their husbands. The club has headquarters in Sacramento. Invited guests included Messrs. and Mesdames George Pullen, Ted Schoefer, Carl Schoefer, C. E. Stephenson, A. K. Lasell, H. G. Dorian, P. W. Demuth, Carl Downs, Chester Garvin, J. Clyde Ralph, Glenn Hiatt, Rubin Johnson, I. A. Taniel, Glenn Woodruff, and Mrs. Dapha Gipe, all Sacramento; Mr. and Mrs. Guy Brewster of San Francisco and Mr. and Mrs. M. J. Abrahamson of Fresno.

Strike Against Greyhound Bus Lines is Called Off

SAN FRANCISCO—(U.P.)—The Brotherhood of Railroad Trainmen this week called off its strike against Pacific Greyhound Lines in seven western states and ordered members to report back for work without having gained their objective, a bargaining contract with the line.

The strike was called May 16 when Pacific Greyhound refused to break its contract with the A. F. L. bus drivers' union and recognize the B. R. T. as bargaining agent. But operations continued without interruption during the strike with A. F. L. men manning the busses in the seven-state system.

The Jewels of Love

PRECIOUS STONES of rare beauty are set in the crowns of the monarchs of the world; their brilliancy is pleasing, and their monetary value often can scarcely be estimated. There are other stones, individually inexpensive, whose setting is not beautiful, but which have work to do in speeding up industrial production. These stones are small diamonds set in hardest steel, which grind and cut metal in a most effective way; they are valuable because of the work they accomplish.

Certain good and lovely qualities of thought have been likened to jewels, but their true and full worth can be rightly estimated only by those who have learned to discern spiritual good. The materially-minded know little of these jewels, just as the outside world knows little of the work done by the small diamonds in the factories. Among these beautiful qualities are meekness and temperance, and one may attain them, and prove their practical value. These qualities are indispensable to our progress heavenward; but they must be desired, and made one's own.

In "Retrospection and Introspection" by Mary Baker Eddy, the Discoverer and Founder of Christian Science, we read (p. 79): "Be temperate in thought, word, and deed. Meekness and temperance are the jewels of Love, set in wisdom." Many people have a wrong concept of these qualities, and believe that meekness indicates weakness of character and submission to another's human will. Rightly considered, it denotes true strength and a noble attitude of thought. Meekness and humility are, generally speaking, synonymous, and one who is expressing humility is free from pride and arrogance. He is not self-assertive. One who is temperate is moderate in his desires, and therefore he is not self-indulgent. Are not these lovely qualities God-given? True wisdom and all right action proceed from God, Mind, and are expressed by the real man, the reflection of God.

Students of the Bible know full well that the great Master, Christ Jesus, was meek and temperate. Under what appeared to be the most trying circum-

stances, he was gentle and kind. He was strong also, because he was patient. He said of himself (Matthew 11:29) that he was "meek and lowly in heart;" and yet has any man been more richly endowed with the Christ, Truth, than the Master? Because of his meekness he was loving and compassionate. He knew that all good qualities belonged to him as part of man's divine inheritance. This knowledge enabled him to heal the sick, and to restore to wholeness those bound by sinful beliefs. Jesus declared (John 5:30), "I can of mine own self do nothing." It was his clear understanding of God as divine Truth, Life, and Love, and his equally clear recognition of the real man as the image and likeness of God, that enabled the Way-shower to do his good works.

On page 360 of "Miscellaneous Writings" Mrs. Eddy states, "Meekness, moderating human desire, inspires wisdom and procures divine power." This should encourage mankind to pray for meekness; and clear thinkers are doing this, for they know that it enables them to make right decisions, and to deal justly with their fellow men. Christ Jesus demonstrated that God, divine Mind, is supreme, the only power. Those who are temperate express true self-government, for they permit themselves to be guided in thought and in deed by God, divine Love. . . . Paul said that "every man that striveth for the mastery is temperate in all things" (I Corinthians 9:25); and in his epistle to the Galatians he foretold the reward of righteous thinking, saying (Galatians 5:22, 23), "The fruit of the Spirit is love, joy, peace, longsuffering, gentleness, goodness, faith, meekness, temperance; against such there is no law."

We have many lessons to learn as we travel along life's highway, but when we express gentleness, patience, and kindness, we are progressing heavenward, and are expressing true wisdom. . . . If we desire, above all else, to be governed by God, divine Principle, we may prove individually that "the jewels of Love" are among our dearest treasures.—The Christian Science Monitor.

Associated Oil Distributes 1940 Football Data Gratis

With the 1940 football season getting under full swing, the Tidewater Associated Oil Company has placed at the disposal of every Associated dealer copies of its new and improved 1940 football schedule.

This handy new vest-pocket booklet has 33 pages replete with football information and is concise in its presentation. It lists every western college football game by stadium, with the price of admission and exact time of the game. It then lists the games by conference with the teams records in last year's play. Then all games are tabulated by date with the scores of the same game in 1939 and a place to record the 1940 score.

fect possible deferment, the actual conscripts will be called.

The preliminary questions to be asked October 16 are as follows:

1. Full name.
 2. Full address.
 3. Telephone number, where can be reached easily.
 4. Age in years and exact date of birth.
 5. Place of birth; if foreign born, name of country at time of birth.
 6. Country of citizenship.
 - 7, 8, 9. Name of persons who will always know your address, his relationship and address.
 10. Employer's name (self, firm, WPA, college, et cetera).
 11. Place of employment or business.
- On the back of the question card, the registrar fills out blanks to describe the registrant, including race, height, weight, eyes, hair complexion and other obvious physical characteristics.

PONTIAC DELIVERIES GAIN 117 PER CENT OVER 1939 PERIOD

Retail deliveries of new Pontiac cars for the first twenty six days of September were 9,132 compared to 4,208 for the same period of September, 1939, a gain of 117 per cent, according to D. J. Bathrick, general sales manager of Pontiac Motor division. This twenty day total also is 503 cars above the sales total for the entire month of September last year and 24.4 per cent greater than the first twenty days of August this year.

Unfilled orders rose to a new high for this time of the year with 2.3 times as many unfilled as there were one year ago.

Sales of used cars by Pontiac dealers for the first twenty days of September were 18,978 compared to 11,247 last year, or a gain of 68.7 per cent, thus maintaining the record breaking pace that began the first of the year. Used car stocks are turning over at the rate of once every twenty-four days.

Auto Association Moves To Stop Sign Vandalism

With the deer season under way and duck season scheduled to commence October 16, road signs are again confronted with their period of greatest damage at the hands of vandals who maliciously use them as targets, according to the California State Automobile Association.

The motorists organization, official road signing agency for northern and central California, stated that although the great majority of hunters conduct themselves according to the

Eleven Questions to Be Put to Draft Registrants

SACRAMENTO—(U.P.)—Each man who registers on October 16 for the selective service program will be asked 11 questions confined to information needed for notifying him if his number is drawn for the draft.

After filling out the questions and receiving an identification card showing his registration, the man may or may not receive a detailed eight-page questionnaire, depending on whether he is chosen for service. On the basis of the later questionnaire, which includes information on marital status, employment and other data would at-

code of true sportsmanship, "there are, as always, that oddly-constituted few who belie the name of sportsman by 'shooting up' road signs. These vandals, by some strange mental quirk, regard it as 'sport' to mutilate and destroy the value of signs provided for the guidance and protection of the motorist."

Each hunting season, the association declared, there is a sharp increase in sign vandalism, with many hundreds of signs damaged beyond repair by gunfire.

The association offers a standing reward of \$25 for information leading to arrest and conviction of anyone who maliciously tears down, mutilates or destroys any direction or warning sign or historical marker which it has installed. Under the vehicle code the offense is a misdemeanor, punishable by fine or imprisonment or both.

Information should first be given to the district attorney of the county in which the offense is committed and the association then notified.

Politically Speaking

by JOHN W. DUNLAP
United Press Staff Correspondent

SACRAMENTO (U.P.)—Much has been written about the recent political conventions in Sacramento, particularly the unexpected harmony in Democratic ranks and the spirited contest among the Republicans to seat a new state chairman.

But there is an interesting sidelight on the career of Thomas Kuchel, 30-year-old state assemblyman, who was named chairman of the G. O. P. factions in a close race with Le-Anderson of Los Angeles.

Kuchel (pronounced Keekl) has always been mature for his age, chiefly because of his childhood obligation to read aloud to his blind father, Editor Henry Kuchel of the pioneer Anaheim Weekly Gazette.

During grammar school and high school days, young Tom read by the hour to his father from the files of the paper, from contemporary newspapers, legislative doings in Sacramento and Washington, and other matters, which is father used as background from which to dictate his stories and editorials. The boy kept in touch with all the day's news, developed a fine sense of judgment, and selection from which to read to his father, and laid the foundation for his successful, though short to date, career in law and politics.

Legislator at 26

Kuchel was a champion debater in high school and at the University of Southern California. He was elected to the state assembly when only 26, earned a reputation of a square shooting, intelligent and honest legislator. He swept both Democratic and Republican nominations for state senator of Orange county in the recent primary election.

The elder Kuchel, now dead, was a friend of Senator Hiram Johnson and young Kuchel worked in his campaign in 1934. His friends hoped the state chairmanship might induce Mr. Johnson to take part in the Willkie campaign but Johnson may elect to play safe and keep his own political fences clear, although as a matter of fact, he has no political worries until he chooses to retire or run in 1945.

Privately, Kuchel felt he was a bit too young for the state job and has plans for expanding his law practice and attending to other private affairs.

Christian Science Service

In all Christian Science churches, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., a Lesson-Sermon will be read Sunday, October 6, on the subject "Unreality."

The Golden Text will be: "Know therefore this day, and consider it in thine heart, that the Lord he is God in heaven above, and upon the earth beneath: there is none else" (Deut. 4: 39).

But when the post was practically forced on him by well meaning friends and legislative associates, he swung into harness immediately by introducing Willkie at a mass rally in San Francisco.

Old Guard Beaten

The Kuchel victory was interpreted as an overthrow of the Merriam and Hoover conservative Republican faction in favor of the younger, progressive and legislative element. Some of the legislature felt the lawmakers were entitled to more voice in party activities. Many of the Willkie supporters felt they were hampered by the long-time domination of the "old guard."

Anderson and Kuchel are personal friends and it was a difficult decision for man of their mutual friends, for Anderson had been a hard worker for the party and the legislature.

Regardless of the Willkie campaign, young Kuchel is almost assured of future political success. He is the type of man his friends believe will end up in Congress, perhaps governor at some time distant.

UNEMPLOYMENT

The average unemployment for the seven years of the Roosevelt administration is 9,402,000 or 18 per cent of the total labor force.

FOUR HUNDREDTH BIRTHDAY

AN OLD Spanish doorway in Arequipa, which on October 12th celebrates with elaborate ceremonies and processions, its four hundredth birthday. The city, founded by the Spaniards in 1540, really was named Villa Hermosa de la Asuncion, or "Beautiful Town of the Assumption" in honor of the Feast of the Assumption, which falls on August 15th. However, the name which has clung to the city since the time when it was a resting place on the old Inca trail leading from Cuzco to the coast—is Arequipa, a corruption of the Quechua name Arequipay.

Legend has it that when Manco Capac was leading his people in search of Cuzco, the capital of the Inca Empire, they came to the place where Arequipa now stands. The

climate here was so delightful because of the altitude, and the surrounding peaks of Chachani, Pichu Pichu and El Misti so dramatically beautiful that the Indians implored him in their native tongue, quechua, to stop and rest here. The Inca is said to have answered "Are quepay," which means "yes—rest."

Present-day travelers use the city for the same purpose. Within two hours by air from Lima, Peru, featured in fortnightly cruises from New York—Arequipa is favored by many travelers as a quiet, off-the-beaten-track place in which to spend a vacation. It is particularly popular with artists and writers, who find here marvelous material for their work.

EDNA MAE STARK.

F. D. R. NOW PLEDGES NO FOURTH TERM

Judge John E. Mack of New York wohn placed Franklin D. Roosevelt in nomination for President in 1932 and 1936, declared recently in Mr. Roosevelt's presence the President had just told him "he had no intention of being a candidate for a fourth term."

Judge Mack told the audience that Mr. Roosevelt told him six months ago he did not intend to be a candidate for a third term. "However," Judge Mack said, "the tide of sentiment at Chicago was irresistible."

The statement was made at a meeting of the Dutchess County Roosevelt Club at Hyde Park, N. Y.

At the meeting a parody of "God Bless America" was sung which included these lines:

"For a third term, for a fourth term,

We put our shoulders to the wheel."

SAFETY FIRST

Almost anyone can install electrical wiring and electrical apparatus so that they will work after a fashion. But to install them so that the greatest degree of safety will be assured, that their mechanical perfection will be realized and that the installation will be forever free from constant tinkering is another matter.

And that brings up the matter of doing electrical work in a "maybe-or-may-be-not" fashion by yourself or having it done by an expert electrician. Each year the National Board of Fire Underwriters add up thousands and thousands of dollars, needlessly destroyed by fire through well meaning but incompetent workmanship of amateur electricians. Is your home, your most valued possession, worth gambling against the few dollars charged by the master electrician or the chances of fire through amateurish workmanship?

TRUCKEE PUBLIC UTILITY DISTRICT

The Man At The Keyhole
by OPERATIVE WB

Members of Governor Olson's official family who have traveled in State cars, lived on State expense accounts and campaigned on State time—while attempting to "purge" members of the Economy Bloc in the Legislature—will soon be required to talk about it under oath. A legislative investigating committee, named to inquire into asserted interference with the work of the Legislature, plans to take the guilty officials for a very, very rough ride.

Despite Hitler and high water, British mills are still operating and British merchant ships are still plying the seven seas. Visible proof may be found on the shelves of almost any California clothing store. English wool is still on sale and still coming in—by the shipload.

Our undercover operative on the Willkie special train send in a belated report that the best extemporaneous speech of the California tour was made by a Willkie admirer, rather than by the candidate. At Sacramento, a woman newspaper vendor, who has sold papers in the State Capitol for years past, pressed her way through the throng to the G. O. P. candidate and exclaimed: "Mr. Willkie, I hope we have an inauguration next January; not a coronation."

PRIZES FOR NAMING YOUR CANDIDATE

Research Committee Looks For Information About Presidential Race.

NEW YORK.—Who is your choice for President of the U. S. A.? Are you a Willkie fan or a Roosevelt fan? And why?

The Educational Research Committee, 33 E. 48th St., New York City, is offering \$100 in prizes for answers to these questions. There are 10 first prizes of \$5 each, and 50 second prizes of \$1 each. "Make your answers short and snappy," says the committee's announcement. "In fact, 25 words are enough."

Anyone, old or young, may compete. Answers from school children are specially invited. Entries may be sent on a postcard, if desired. The contest closes this month, and prize money will be mailed the next day.

Wee Bits Of Wisdom

It now costs \$1,004 per year to support a person on WPA but the worker receives only \$650, the balance going to overhead and material costs. "No man is free who is not master of himself." —Epictetus.

A peat deposit covering more than 500 acres is being harvested near Alturas.
